FOREWORD

Greetings and salutations to flower lovers everywhere! It is with considerable pleasure that I bring you this, our sixth annual catalog, and wish you, each and every one, health, wealth and happiness—and continuing success with your gardens—wherever you are. Thanks a million for your wonderful letters, and even more wonderful orders—we love them!

This year we are using new pictures which I took during the 1951 season, and are listing a number of new varieties and hope that they meet with your approval.

Thanks to the modern hybridizers, irises have become the loveliest garden flower of all, unrivalled in color, form and ease of culture, and within the pages of this catalog you will find over 200 of the world's finest varieties listed. You will make no mistake in ordering these lovely flowers, for they have been carefully selected and even more carefully grown.

You—and your friends—are always welcome at our garden. Peak bloom is usually about the middle of May, and this year the commercial plantings as well as my own seedlings will be found at our home at the extreme end of North 16th Avenue. Turn north from Fruitvale Boulevard (the Chinook Pass Highway) and cross the River road to the third house on the right. Our telephone number is 3-3935. Be seeing you!

Sincerely,
Jack G. Linse

SPELLBOUND (Linse 1951) 42". Big, bold and handsome! This spell-binder is done in red with a golden overlay. It positively glows! WHISPERS (Linse 1951) 42" Some irises are handsome and bold, others gay and strident, but Whispers is not of these, but rather it is soft and alluring—delicate and lovely, with its ruffled standards of soft Chrome yellow and flaring falls of Amber white with graceful lilt. Described as Pinnacle done in reverse, there is actually less contrast between standards and falls, and the form is different. The flowers are large with good substance. Branching and habit of growth are superb. \$10.00

WHITE WEDGEWOOD (Grant 1943) 38". AM 1945. A large porcelain white with blue at the base of the white beard. Very early and of highest quality. \$1.00
